

PRODUCT FACT SHEET

THE INTELLIGENT LINK BETWEEN  
THE WAREHOUSE AND THE ROAD

# LFS.delivery

Truck Driver App by E+P

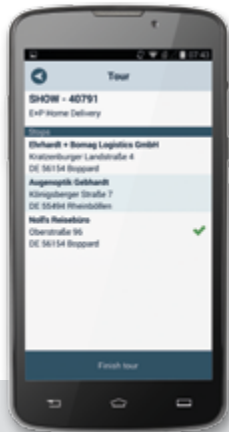

- Transfer of orders from LFS to the mobile devices
- Supports the driver in processing the orders
- Documentation of loading/unloading processes and navigation to the stops of a tour
- Simple integration into processes of external service providers
- Innovative “bring your own device” concept

Smartphones and tablets have found their way into warehouse logistics. Ehrhardt + Partner shows how customers can use LFS.delivery to save costs and increase efficiency with the innovative “bring your own device” concept. In combination with our tour planning module, you can analyze your data even more efficiently.

The Truck Driver App supports the truck drivers in order processing, up to the delivery to the customer. All steps are integrated into LFS, smoothly and transparently. LFS.delivery is not only intended for internal use. It is also designed for external use by service providers. The driver is guided through the tour processing actions step by step. At the same time, the user can document the tour progress, the order status and report the information to LFS in real-time. All this takes place using a smart phone, simple and mobile.

Engineered  
by EPG

**THE FUNCTIONS AT A GLANCE:**

- Tracking&Tracing
- Real-time synchronization
- Offline function
- Signature function
- Navigation
- Digital document creation
- Documentation of breakage and defective goods
- Photo documentation
- Optimized and encrypted data transmission

Available in the Google® Play Store

**THE ADVANTAGES AT A GLANCE:**

- No purchase of special hardware required
- Reduction of the coordination effort with the logistics service providers
- Increase in efficiency thanks to intuitive operation and clear design
- Training only takes a few minutes
- Supports the driver in order processing
- Prevents unnecessary waiting times at the loading/unloading platforms
- Voucherless processes
- Increased process security thanks to load scanning
- Available in 16 languages
